

A single pergola set can be installed in a short period as 60 minutes

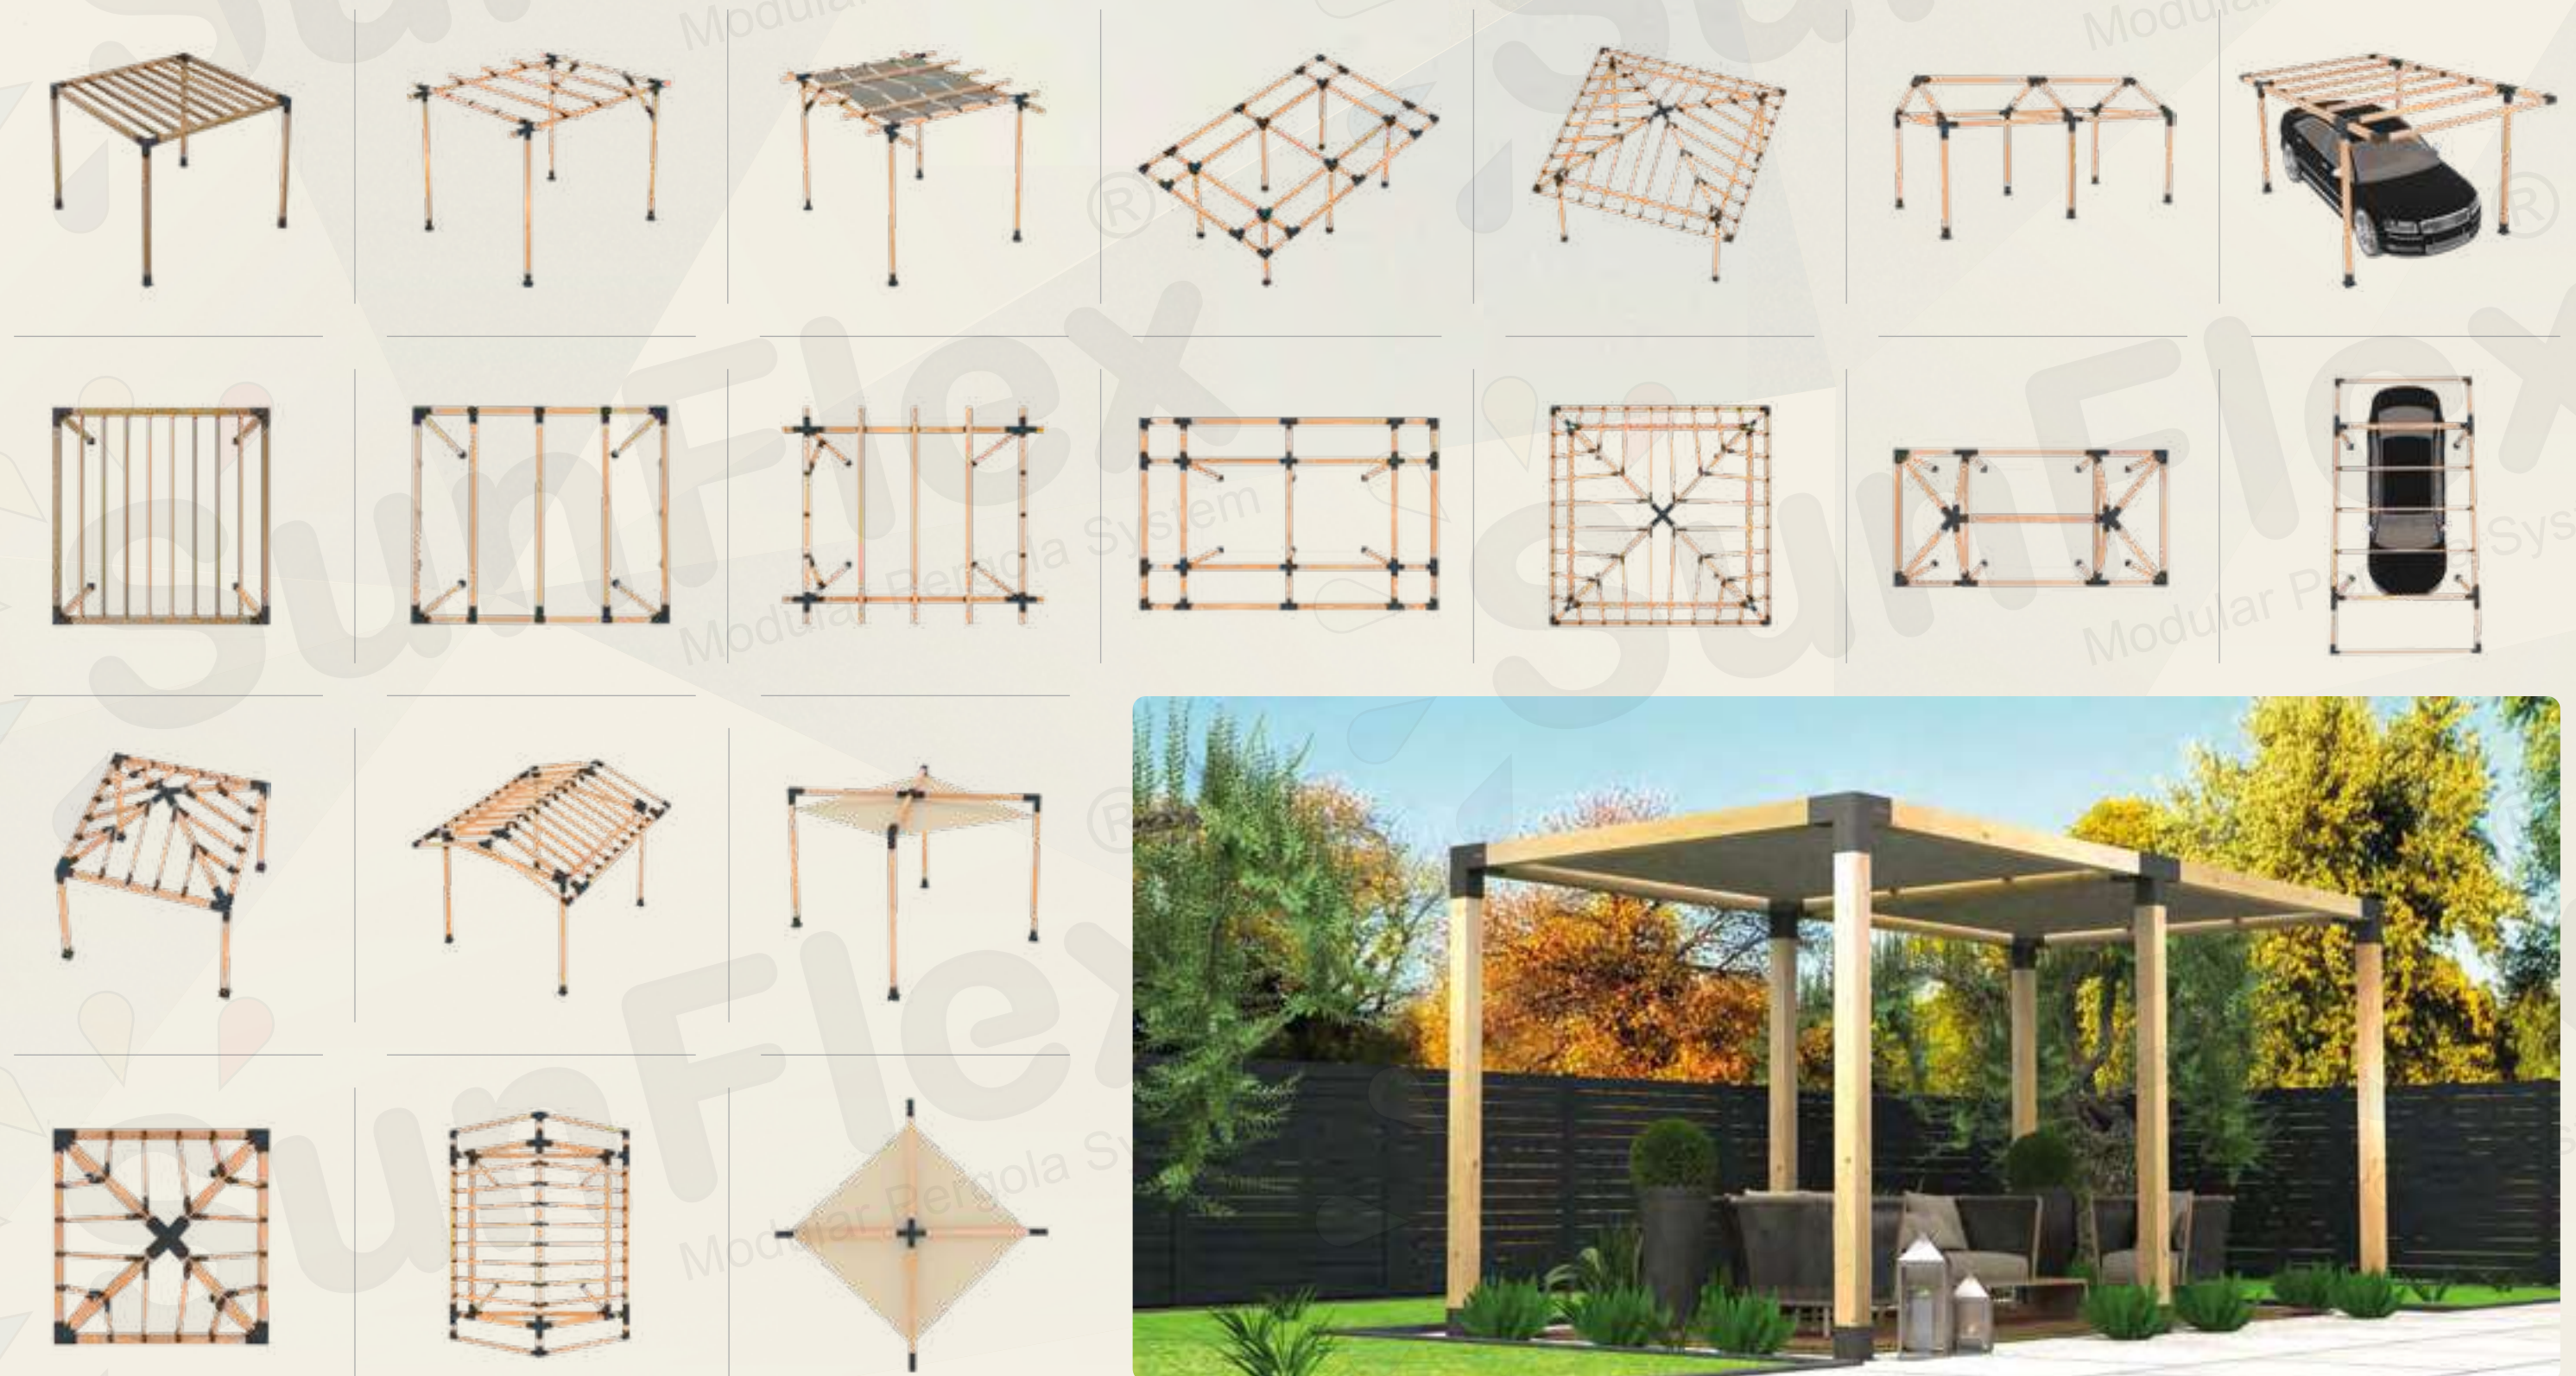

The only Limit is your imagination. You can create your own pergolas with our bracket sets

*in
every way*

**“SUNFLEX QUALITY;
IS NEVER A COINCIDENCE,,**

SUNFLEX QUALITY;

It is the result of always setting a superior goal,
making a sincere effort and following a wise path
It is the smart choice among many alternatives

WHY SUNFLEX

Easy, Fast, Economical

It is a high quality ready-made pergola and bracket system that can be assembled easily and smoothly in a short period and use for a long time without any problems.

Durable

Sunflex brackets system provides you to have a modular pergola that will stay neat over time by grasping the wood tightly from all 4 edges without notching or cutting if beams are in right size. It maintains its durability against wind and impacts for years without any problems. It is time labor-cost saving.

10 Years Warranity

Sunflex brackets are coated with cathoporesis coating and clas 2 polyester powder paint after cutting and welding cleaning. Thanks to these processes that guarantees trouble-free use for 10 years, including at the seaside.

Assemble, Disassemble, Re-assemble

Sunflex pergola system allows you to apply in many different ways. You can disassemble Sunflex products and take them to another place, and enlarge or reduce the size as you wish.

From Sun or Rain

After installation, you can cover the top of Sunflex products with a sunshade, a retractable awning, a top-down awning, a detachable roof awning or a fixed awning.

Dense wood beams also can be another option to provide protection from the sun.

You can buy only Sunflex brackets, purchase wooden beams locally and assemble easily.

Also Sunflex sets including beams and sunshade can be purchased as a package.

SUNFLEX DURABLE MATERIAL AND QUALITY WORKMANSHIP

MODULAR

Sunflex's modularity allows you to change the entire system and add or remove sections

FAST INSTALLATION

You can create a new living space by applying our pergola sets in a short period as 60 minutes per section

ROBUST AND DURABLE

Sunflex brackets are produced with High quality steel coated cataphoresis and electrostatic powder painting

RESIDENCES

Sunflex can be assembled in many ways and thanks to its modularity, you can use it in your garden or on your veranda

WORKPLACE

You can create useful areas in front of workplaces in all seasons

HOTEL AND HOLIDAY VILLAGES

It will be your choice in hotels, cafes, beaches, holiday villages and restaurants with its easy, flexible and decorative beauty suitable for all sizes

* Ask from your dealer.

* With your family or friends assemble it with fun. Or request assembly.

FEEL YOURSELF IN NATURE

- Wood is healthy, gives you happiness and relieves your stress.
- It is a natural, organic, human-friendly and warm material.
- It has a wide variety of colors, patterns, textures and sizes. It has superior aesthetic and acoustic properties. Compared to other building materials, it is the building material that is most easily sourced and can be renewed most quickly.
- Wood is strong and has a high bearing capacity.
- It can carry more load than steel.
- It is a much more economical option.

SUNFLEX;

In order to respond to different color options on wooden beams, the upper surface color and varnish process is left to the user.

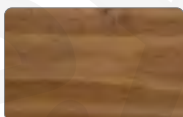

Wooden beams should be coated with water/oil based wood paints, colorless varnish or colored paint. You can protect it with varnishes.
